

Yousef Salman

Frontend Developer

yusefsalman13@gmail.com • +962799882249 • Jordan, Amman

[LinkedIn](#) • [GitHub](#)

Summary

Professional Frontend Developer with a solid foundation in building clean, responsive, and user-friendly web applications. Highly proficient in JavaScript (ES6+), React, and modern styling frameworks like Tailwind CSS and Material UI. Experienced in building dynamic frontend projects using modern build tools like Vite and optimizing web performance. A fast learner and problem solver committed to delivering seamless user experiences and writing maintainable code.

Education

B.Sc. in Artificial Intelligence at Tafila Technical University, Jordan, Tafila **October 2023 - Present**
Grade: 80.1

Skills

Frontend Development: JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, Material UI (MUI)

Programming Languages: C++, Java, Python

Tools: Vite, Axios, Git & GitHub

Projects

Weatherify (Weather Application) • [Link](#) • [GitHub](#)

A dynamic web application providing real-time weather updates using the OpenWeatherMap API, optimized for smooth performance and high-quality UI.

- Developed a polished, responsive user interface using React and Material UI (MUI) components.
- Integrated Axios with cancel tokens to manage API requests efficiently and prevent memory leaks.
- Utilized Moment.js for handling time-zones and displaying dynamic date data.

Personal Portfolio • [Link](#) • [GitHub](#)

A professional, highly responsive portfolio website built to showcase my frontend development skills, code quality, and personal projects.

- Developed using React and Vite for fast rendering and optimized build times.
- Crafted a clean design with Tailwind CSS ensuring full mobile responsiveness and smooth layouts.
- Structured using clean, reusable components for high maintainability.

To-Do App (Productivity Application) • [Link](#) • [GitHub](#)

A sophisticated productivity application built to demonstrate state management, full CRUD operations, and seamless user workflow.

- Implemented full CRUD (Create, Read, Update, Delete) functionality for efficient task management.
- Optimized rendering and performance by leveraging React's state handling.
- Added persistent data handling (LocalStorage) to save user tasks across browser sessions.
